

Langrish School E-Safety Statement

At Langrish we are committed to the use of computer technologies and recognise the Internet as a valuable tool for learners of all ages. However, we also acknowledge that computers, mobile devices and the Internet do have the potential for inappropriate use and access to undesirable material from which we have a duty of care to protect our pupils.

In order to fulfil that duty of care, Langrish School will:

- Use a filtered Internet service to prevent access to sites containing undesirable material.
- Ensure that all internet access within the school is supervised by an adult.
- Continue to maintain a high standard of staff safeguarding training, including e-safety.
- Educate our pupils - using age-appropriate lessons, assemblies and resources - about the responsible use of technology, and how to deal with some of the threats, dangers and challenges they may face in the digital world.

For more guidance on e-safety from Hampshire County Council, please visit their website:

<https://www.hants.gov.uk/socialcareandhealth/childrenandfamilies/safeguardingchildren/onlinesafety>

As a Rights Respecting school, this e-safety statement has been designed to safeguard and uphold Article 17 and Article 19 of the United Nations Convention on the Rights of the Child.

Year 2's E-Safety Guidelines

After talking about keeping safe online we decided that we will:

Tell an adult if we get a message that upsets us or if it is from someone we don't know.

Not respond or don't delete the message because the adult needs to see it.

Be careful about messaging on the internet

Not speak to anyone that we don't know.

Not share any private information such as our full name, address, telephone number or the name of our school.

Keep our passwords private (but we will share them with our parents).

Always make sure we ask our parents before going on the internet.

Not send any unkind messages - always use kind words.

Only play games that we are old enough to play - we won't play games that are for older children.

Not use Facebook, Instagram, WhatsApp or any other social media until we are old enough.

Trust our grown-ups decisions about what we can use online.
