Langrish School E-Safety Statement

At Langrish we are committed to the use of computer technologies and recognise the Internet as a valuable tool for learners of all ages. However, we also acknowledge that computers, mobile devices and the Internet do have the potential for inappropriate use and access to undesirable material from which we have a duty of care to protect our pupils.

In order to fulfil that duty of care, Langrish School will:

- Use a filtered Internet service to prevent access to sites containing undesirable material.

- Ensure that all internet access within the school is supervised by an adult.

- Continue to maintain a high standard of staff safeguarding training, including e-safety.

- Educate our pupils - using age-appropriate lessons, assemblies and resources - about the responsible use of technology, and how to deal with some of the threats, dangers and challenges they may face in the digital world.

For more guidance on e-safety from Hampshire County Council, please visit their website:
https://www.hants.gov.uk/socialcareandhealth/childrenandfamilies/safeguardingchildren/onlinesafety

As a Rights Respecting school, this e-safety statement has been designed to safeguard and uphold Article 17 and Article 19 of the United Nations Convention on the Rights of the Child.

Year 6's Internet Safety Guidelines

- Respect the privacy of yourself and others online as you would in person

- Be aware of the information you share about yourself and how it can be used online. Do not share information about others without their consent.

- Check and follow reviews and age limits when requesting new apps and games like Fortnite (13+); gain consent from your adults for these

- Keep personal information private and passwords secure

- Be open about online activity including the use of AI

- Mute chats, or remove the chat function, when playing online or unplug headphones so adults can hear what is being said.

- Make sure you only interact with people you know. If someone unknown contacts you, report this to an adult.

- Ensure online use is in a family space where adults are available if needed

- Don't be afraid to report your friends' online behaviour if it is inappropriate; know how to block and report

- When using messaging apps, be open with your parents about who you are talking to and be respectful of the groups' participants: if you wouldn't say it in person, don't say it
