

# Year 1 Internet Safety Charter

Our class discussed how to stay safe whenever we're online and came up with these rules to follow both at home and in school:

- 1) Always have an adult with us whenever we use the Internet and always ask their permission first.
- 2) Never click on or download anything we're not sure of.
- 3) Never share private information about ourselves over the Internet, such as your name, what school you go to or where you live.
- 4) Only ever talk to people that we know over the Internet, never to strangers.
- 5) Always tell an adult if we see, read or hear anything on the Internet that we do not like.
