## A Day in the Life of Me — by Elizabeth - Year 4

Sunday 10th May 2020

Dear Diary,

As you can imagine home school isn't easy but today hasn't been the worst. Seeing as it is the weekend, I was relaxing at 6 o'clock (the normal time I wake up.)

Suddenly realising it was Sunday, I jumped out of bed to get ready for church. I went downstairs for breakfast, then I got dressed.

When we finally sat down in Michael's room to watch the service, we found out the vicar was actually in church. Many of the other services were in his study! Once we had church, Michael and I had biscuits and squash. Next up was our zoom meeting. It is a new thing we are doing at church and it is a great way to keep in touch. Rev. Will split us up into groups of 5 but in our group there was only 3 (including us). In the meeting we had a long chat with people we didn't even know. (You can't know everyone unless you are Will!) Michael and I were asked lots of questions about school. I am looking forward to another zoom meeting this Thursday with my younger church friends!

After that, we decided to go on a walk as a family. We went through a rusty, iron, gate which led into the field. Up ahead was a lonely tree surrounded by a HUGE bush. As soon as we reached the tree it felt as if we were in a hurricane! The wind was about to blow us over! On the way back we crossed lots of bridges and the water beneath us was really deep. I ask why there were holes in the bank. Daddy said lots of water voles and other animals dig in the sides of the rivers.

Sorry, I have to go for dinner. Good night! xxx
