

Year 4 E-Safety Charter

- We do not share our personal information (including photos) online

- We only open safe content (nothing confidential, a potential scam or a pop up) **'If it's too good to be true, it probably is!'**

- We do not meet up with individuals we met online (and if we do, our grown-ups will be with us)

- If there is an age restriction, we do not access this program, app or website ourselves (Consult an adult first)

- If someone is cyberbullying, they are blocked immediately

- We will be 'fake news spotters' and ensure we consider if this information is likely to be true or not, and be cautious if generative AI may have been used to produce this

- Inappropriate content is to be paused/closed and an adult must be told (**Pause, close, tell an adult**)

- Only use a computer when you need to (Smart phone free childhoods)
