

Langrish School Physical Sport and PE Action Plan 2020 / 21

Key achievements to date:

- Every child in the school participates in weekly PE sessions, 2 hours, within school time
- Every child participates in personal challenges (shown on PE board) and records their personal best
- Every child from Years 3-6 has access to a wide range of extra-curricular sporting activities
- Playleaders form part of the pupil voice within our School Parliament
- Approval for the development of outdoor active facilities including an extension of the current tarmac area (due for completion in 2021)
- Achieving Gold Sportsmark for KS2
- Achieving top three places in East Hampshire sports competitions and representing East Hampshire in Gymnastics, Cross Country and Indoor Athletics at the Hampshire Games
- Training of Playground Leaders from attendance at East Hampshire course at Perins School Hub
- Our Y6 sports leaders helping to organise SSG events here at Langrish, including refereeing football matches and rounders matches
- Ensuring less active children, pupil premium and SEND groups are given opportunities to take part in physical activity festivals and competitions
- Developing role of P.E. governor
- Being placed in the top three places for local competitions within the SSG for teams from all KS2 year groups
- Developing links with community sports clubs who have provided free taster sessions and organized competitions for us. Consequently more children are involved in sports clubs in the community including: tennis, karate, swimming, rugby and football. The strong links mean we have had access to many events for our children

Areas for further improvement / Embed existing practice

- That the children have more opportunities to realise developmental, character-building experiences through sport, competition and active pursuits
- Further develop provision for the least active from pupil survey
- To investigate a swimming gala (house event) for KS2 in the Summer Term
- Provision of more active opportunities for SEND children including development of the existing play trail
- Provision of therapeutic active opportunities to support children with mental health needs
- To further develop outdoor space to provide facilities for physical activity at breaktimes and for use within the curriculum
- To refurbish outdoor active areas in accordance with SDP 1A
- To apply for the Platinum Mark for KS2 physical education provision
- To develop the role of 'Wake and Shake' and 'Up and Go' to support the development of our active school ethos enabling all groups of children to access physical activity required for their physical and mental health
- To revisit the lunchtime playtime cards to help children with socialisation within their bubbles
- To continue to access training opportunities for teachers to strengthen their PE and Sport knowledge
- To continue to purchase resources needed to ensure that high quality lessons can always be delivered. This includes bikes and outdoor play equipment for YR
- To continue to access all East Hants and SSG sporting competitions and festivals (currently virtual until guidance changes)

NB Many of the above are currently restricted by COVID guidelines and so may continue past this academic year.

Due to lockdown from March 2020, swimming across KS2 at Churchers College did not take place. Therefore, there is no data available for the Y6 cohort for 19/20. They did, however, access swimming provision over eight weeks during the Summer terms at Langrish in Years 4 and 5. This was led by qualified swimming coaches in three ability groups and included a range of swimming strokes. It also included diving and tumble turns for those in the top band.

Funding available from Sports Premium this year: approx. £17,000. A breakdown of spending will be provided for each Governors Resources Committee Meeting.
